EXPERIMENT

Title

NUMBER OF TOYS

Description

Akshay has a number of toys and he decided to donate some of them to an NGO. After the donation, he still has some toys left. Write a program to help Akshay to determine the number of remaining toys.

Source Code:

```
total,donated = map(int,input().split())
remaining = total - donated
print("The remaining number of toys =",remaining)
```

Example:

Input: 50 45
Output: The remaining number of toys = 5

Input: 60 6
Output: The remaining number of toys = 54

RESULT

5 / 5 Test Cases Passed | 100 %
